# ABRAHAM ADDISU

*Mobile App Developer | Android (Kotlin) & Cross-Platform (Flutter)*

abrahamaddisu217@gmail.com | t.me/abroid0 | Ethiopia, remote worldwide
linkedin.com/in/abraham-addisu | github.com/Minas-27 | pub.dev/publishers/abroid.dev | abroid.dev

## SUMMARY

Mobile engineer shipping production Android (Kotlin, Jetpack Compose) and Flutter applications, currently building healthcare and insurance software full-time while completing a Software Engineering degree. Experience spans live payment and SMS integrations, real-time location systems, offline-first architecture and deep localisation for non-Latin scripts and a second calendar system. Creator of upkeep, an open-source project-health CLI for Flutter, and a six-package Flutter toolkit, both on pub.dev.

## TECHNICAL SKILLS

**Mobile:** Kotlin, Jetpack Compose, XML Views, MVVM, Room, WorkManager, Coroutines & Flow; Flutter & Dart, some native Swift interop

**Backend & data:** REST APIs, JSON-RPC, Firebase (Auth, Firestore, FCM, Storage), SQLite, Socket.io; Java, Python, C++

**Payments & platforms:** Chapa, AfroMessage, Super App Mini Apps (Macle), Odoo ERP integration, offline-first architecture

**Practice:** Clean Architecture, code review, Git, CI/CD, Play Store release management, Figma to code

## EXPERIENCE

**Software Development Lead** — Doubleyou Centre *Oct 2026 – Present*
*Remote, Africa · Part-time · African Student Impact Program*

- Lead the software track for the Develop and Test month across a cohort from more than 18 African countries. The live build is the African Impact Hall of Fame. What we show in public has to be what we have actually built.

**ASIP Fellow** — Doubleyou Centre *Sep 2026 – Present*
*Pan-African · Remote · Inaugural cohort of a fellowship for students turning skills into practical impact.*

**Full Stack Engineer, Mobile Focus** — Medco Technology Solutions *Apr 2026 – Present*
*Addis Ababa, Ethiopia · now remote*

- Build and ship client-facing medical and insurance applications in Kotlin and Jetpack Compose, covering claims, underwriting, motor insurance, payments and localisation.
- Work across frontend and backend with cross-functional teams; code review and CI/CD maintenance.

**Software Engineer, Internship** — Medco Technology Solutions *Feb 2026 – Apr 2026*

- Joined as an intern and was offered the full-time engineering role within three months.
- Worked from requirement analysis to deployment on healthcare and insurance client applications, including Odoo ERP integrations.

**Freelance Full Stack & Mobile Engineer** — Self-employed *Jun 2025 – Present*
*Bahir Dar, Ethiopia · Hybrid · 5.0 rated on Upwork*

- Technical partner for non-technical founders and traditional service companies digitising manual operations.
- **Daga Taxi** (Oct 2025 – present), production ride-hailing platform for Daga Meter Taxi PLC: passenger and driver apps live on Google Play. Google Maps live tracking, Socket.io dispatch, foreground-service location, Chapa payments, AfroMessage SMS, Firebase Auth and FCM. Owned architecture, database design, QA and Play Store release; ongoing support.
- **Odoo ERP mobile inventory scanner**, Flutter app integrating directly with Odoo over JSON-RPC, replacing manual warehouse paper logs with real-time stock updates.

**iOS Flutter Developer, Internship** — BrainBite (EdTech) *Oct 2025 – Jan 2026*
*Netherlands · Remote*

- Built cross-platform Flutter features, with some native Swift, for a children's educational platform.
- Integrated ElevenLabs voice synthesis and worked asynchronously across time zones with a European team.

**Embedded Systems Developer** — BiTec, Bahir Dar University *Dec 2024 – Oct 2025*

- Built **HAKI**, a real-time power monitoring device, with a team of four: ZMPT101B, ACS712 and AHT20 sensors reading voltage, current, power, temperature and humidity to a TFT display with SD-card logging.
- Took it from breadboard to custom PCB, SolidWorks, 3D printing and CNC; it ran for over a month on a live load and was presented at the 13th EAI ICAST 2025.

**Dala Studio Campus Ambassador** — Gebeya Inc. *Apr 2026 – Jun 2026*
*Ethiopia · Hybrid · Part-time · Selected by Gebeya to support the student developer community on campus.*

## OPEN SOURCE & SELECTED PROJECTS

**upkeep** — creator and maintainer *pub.dev, MIT · Sep 2026*

- Dart CLI and GitHub Action that finds discontinued, incompatible and abandoned Flutter dependencies with the evidence for each verdict, and checks Gradle, AGP and JDK against Google's Android requirements. upkeep.abroid.dev

**ethio_dev_kit** — creator and maintainer *pub.dev, MIT*

- Six-package Flutter/Dart toolkit for Ethiopian developers: calendar conversion, Ge'ez/Latin typography, phone, currency and national ID validation, holidays, address data, and Amharic speech-to-text support (wraps an existing engine, not a trained model).

**FaydaHealth** — developer, team of four (Nova Tech) *2025 – 2026*

- Health record concept unifying fragmented medical histories against Ethiopia's national Fayda ID, with AI-assisted preliminary triage and an Amharic chatbot demonstrated in the pitch build. A student project: built and pitched, not deployed.
- **2nd place**, CoBuild Ethiopia AI Hackathon 2025 · **Winner**, Hult Prize On-Campus 2026 · **Top 8 of 600+ teams**, Hult Prize Ethiopia National Finals 2026.

**Also on github.com/Minas-27:** HireAI, bilingual AI recruitment with LLM evaluation and a scoring audit trail; Addis 360, offline-first civic directory; Abroid Scan, on-device OCR; Abroid Recall, native Android Telegram archive (TDLib, Room).

## EDUCATION

**BSc Software Engineering** *2023 – 2027*
*Bahir Dar Institute of Technology, Bahir Dar University*

## LANGUAGES

English (professional) · Amharic (native) · German (elementary)

## HACKATHONS, PARTICIPANT

Wellness Hackathon 2026, ALX Ethiopia · DevQuest 2025, SLIIT

## CERTIFICATIONS & AWARDS

- Hult Prize 2026 Ethiopia National Finalist, top 8 of 600+ teams
- Hult Prize 2026 On-Campus Winner, Bahir Dar University
- CoBuild Ethiopia AI Hackathon 2025, 2nd place
- Innovation to Impact, Bahir Dar i-Teams (Cambridge), 2025
- Global and Planetary Security, One Young World Academy
- AI Fluency: Framework & Foundations, Anthropic
